3] C4S: GENERAL EDUCATION STUDENTS	
Documentation of service delivery for general education students who have a parent signed consent to treat and a 504 Plan or Plan of Care. If student is Medicaid eligible, and a speech referral is on file, services can be billed. Proposed roll out for general education speech services 2020-21 school year.	
GENERAL SERVICE INFORMATION	
<ul style="list-style-type: none"> • Consult services are an integral part or an extension of a direct medical service but are not separately reimbursable by Medicaid. • Service entry is due within TEN days of service delivery. • Provider Notes must include enough detail to allow reconstruction of what transpired for each service. SOAP is best practice. • Therapy/Treatment and Assistive Technology Device services are reportable only if the student’s IEP/IFSP includes Direct services 	

with a time and frequency.

Service Documentation:

The Michigan Department of Health & Human Services (MDHHS) has emphasized the importance of thoroughly documenting all services provided to Special Education students. For direct services such as therapy and counseling, documentation must include a progress entry for each direct service describing the service rendered and the student's response to that day's service or treatment. **S.O.A.P. notes are best practice!** If not using the S.O.A.P. format ensure enough data is in your provider notes to support the service you are entering. There must be enough data for an auditor to "recreate" the service. Your documentation must indicate not only WHAT services are being rendered to meet the student's IEP/IFSP goals, but HOW the student responded to service.

Provider Note Example: Group Therapy 92508 –"John played "Go Fish" with picture cards. John was able to say /k/ sound in carrier phrases with 65% accuracy with moderate prompting. We will continue to focus on the /k/ sound."

Monthly Progress Summaries are REQUIRED for each month that services are reported for Medicaid eligible students. A monthly progress summary summarizes all services provided to the student throughout a month.

Monthly Progress Summary Example: "John is making consistent progress toward meeting criteria for IEP goals/objectives. John is currently able to produce /k/ in carrier phrases with an average of 70% accuracy at an independent level. Continue /k/ at phrase level."

Annual Requirements:

Speech therapy services must be referred by a physician and updated annually.

Staff Qualifications:

The services listed are reimbursable when provided by a Limited Licensed Speech and Language Pathologist currently licensed in Michigan. Limited licensed speech pathologists must be under the direction of fully licensed Speech Pathologist.

Supervision & Under the Direction Of:

Michigan Department of Health and Human Services Provider Manual dated October 2019

1.4 UNDER THE DIRECTION OF

Certain specified services may be provided under the direction of or under the supervision of another clinician. For the supervising clinician, "under the direction of" means that the clinician is supervising the individual's care, which at a minimum, includes seeing the individual initially, prescribing the type of care to be provided, reviewing the need for continued services throughout treatment, assuring professional responsibility for services provided, and ensuring that all services are medically necessary. "Under the direction of" requires face-to-face contact by the clinician at least at the beginning of treatment and periodically thereafter.
