

HANDS ON!!!!

LEARNING TO STACK BLOCKS:

- stack other items to practice, these may include sponges, small books, little cereal boxes, bean bags, tissue boxes.
- stack two blocks inside a small box or cup to show how to do it, the box will support the blocks to ensure success
- put a smaller block on top of a larger block, or smaller item on top of a larger item, to demonstrate the skill.
- use weighted blocks to start that offer more feedback.
